

I understand that the increase service of LPFM stations may make it impossible to hear K-LOVE on my local station of 88.9 out of Little River, SC. In our area there are many morning radio shows that are not acceptable listening for children. I resent the fact that if I want to listen to the radio in the morning while I am transporting my children to school, that they will be subject to listening about other's sex lives. I praise God that there is a station I can listen to that gives a loving and positive message to my children and other's children. What will come of our society if we as parents do not start paying attention to what our children are listening to and watching on TV. Furthermore, I consider it "my right to worship". I can praise our God and Saviour all day every day by being able to listen to K-LOVE. After a hard day at work, it is uplifting to be able to travel home and remember why I am here on this earth. TO SERVE and PRAISE OUR GOD. Please do not take this away from our community!
